We have a new location! Due to a flood (there really IS something about being on the 13th floor of a building) we are now in our new space at 150 E. Huron, Suite 900, Chicago, IL 60611.

Check out our new website! It features a section for companies with hiring issues AND a section with tips for those looking for jobs – even an interactive map that shows what jobs are open in what region. We offer job postings for companies looking to hire candidates and free internship postings. See the site at www.MediaStaffingNetwork.com for details, or call Alex at 312.944.9194, ext. 101

The website has some other new sections – **How I got my job** – a section where real, live professionals share how they got their jobs and **The Media Spotlight** – where we will highlight different positions in advertising sales and associated areas. This is a great source for those wanting to get into the business or to change careers.

Our staff is growing! Jennifer Hodlick joins as an Account Manager/New Business Development; Mike Hart is our new Jr. Recruiter who will work with admin and entry level jobs and Alexandra (Alex) Becker, our new Marketing Coordinator. Visit our website to learn more about them.

WE'RE TEAMING UP WITH CITY STAFFING

In Chicago, we have entered into a strategic alliance with City Staffing for a few reasons:

- more efficient turn around on pay for temps
- a larger database of administrative candidates and updated testing for our clients
- more jobs for our temps
- ability to offer our clients a larger base of talent – now in creative, too!

Let us know your needs and we will find the solution!

In addition to other services, MSN can now offer individual coaching – both for candidates needing help in finding a job AND for employers needing help in recruitment!

In communications, tone and words are key. It is usually not the words that get remembered, but how they are said.

Instead of always saying “no,” try using “YES” in brainstorming and managing your talent. Buy into their ideas and work with them on coming around to a working concept.
